# July 2013

Bachelor of Computer Application (BCA) Examination

Il Semester

# Problem Solving & Programming Through C - II

Time: 3 Hours]

[ Max. Marks: 50

Note - Attempt all the five questions. Solve any two Parts from each question. All questions carry equal marks.

- (a) What do you understand by scope of any variable? Describe local and global Variables.
  - (b) Write a program that contains a function to reverse the number provided by the user.

#### OR

- (a) What is function prototype? Explain.
- (b) What are return types of functions? Explain various return types of function in C.
- 2. (a) How pointers can be used as parameter to the function? Explain.
  - (b) How string can be used with the help of pointer in C ? Explain with example.

#### OR

- (a) How cata can be write to or read from structure variable? Describe using suitable example.
- (b) State the major difference between structure and union.
- 3. (a) What are various methods available in C to read the disk file?
  - (b) Write a C program to describe the process of writing data to a file.

### OR

- (a) What do you mean by Static and Dynamic Allocation of Memory?
- (b) What is command line argument concept? What is the need of it?

- 4. (a) How to set colors in various graphics mode?
  - (b) Explain any two of the following:
    - (i) Display adapter
    - (ii) Resolution
    - (iii) Video display modes

#### OR

- (a) What do you mean by Video Pages?
- (b) How to write VDU memory in text mode?
- 5. (a) Write a program to create circle with red colour.
  - (b) What do you mean by designing animations? Explain.

#### OR

- (a) Explain various graphic programming modes with examples.
- (b) Write a program to draw a stylish line on screen using graphics programming.
